

COMPANY PROFILE

Bendflex Machinery India Private Limited is dealing in CNC automatic tube benders, NC automatic tube benders, End Forming machines, circular saw cutting machine, Tube / Sheet Laser Cutting machine, Plate Bending machine, Section & Profile Bending machine, Iron Worker , Flanging machine, Hydraulic Crimping machine, Hose Cutting & Skiving machine and various kind of tube processing & forming machines.

Bendflex machines especially those used in the industries of automotive parts, ship building, heavy & petrochemical engineering, aerospace, furniture, sports fitness, air conditioning, building decoration...etc.

Bendflex Machinery provides a full range of services : qualified technical task study, advice on the implementation of the latest efficient bending & forming technology, assistance in selecting equipment and tools, its implementation, warranty and post-warranty maintenance

BENDFLEX
BENDING & FORMING SOLUTION

NC series
CNC Hydraulic series
Bending Machine

BP 50 NC

BPCNC65-IS-2A

BPCNC89-IS-2A

BENDFLEX
BENDING & FORMING SOLUTION

CNC Electric
Series 3, 4 & 5
Axis Machine

BPCNC38-5A

BPCNC38L+R (2 IN 1 SERIES)

BPCNC50-2R-4A

BENDFLEX
BENDING & FORMING SOLUTION

**End Forming
Machine**

BPEF40-1AI

BPEF40-3

BPEF60 TWIN

BPEF60-2

BENDFLEX
BENDING & FORMING SOLUTION

Cutting Machines

BP CNC 425

BPMC315(MANUAL & SEMI AUTO SERIES)

CHIPLESS CUTTING

Product Profile

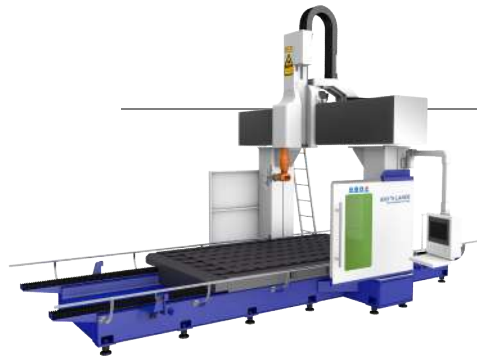

- Fiber Laser Cutting Machine
- Fiber Laser Welding Machine
- Laser Marking System
- PCB drilling & testing system
- Robotic machinery
- Semiconductor and automation

Laser Tube Cutting Machine

Laser plate Cutting Machine

3D-5 axis Laser Cutting Machine

Automatic Production Line

Plate Bending machine

Section / Profile Bending machine

Iron Worker / Flanging machine

COMPANY PROFILE

From being founded in 1987, **Techmaflex** has become known for the quality and reliability of its benchtop equipment and crimping solutions. Today, Techmaflex is a leader in Europe on **benchtop crimping and its supporting equipment range**. Techmaflex has grown globally with an established equipment range for **portable equipment, benchtop equipment, OEM level and Industrial hose applications**.

Techmaflex has worked closely with a hose and fitting manufacturer to ensure the equipment meets the toughest demands of the **hose industry**.

Techmaflex continues to innovate in order to serve the expanding market with reliable, hard working equipment and unbeatable service. When you decide on your next line of equipment, look for the **"Original Techmaflex" Stamp** to ensure you have the best so you can make the best.

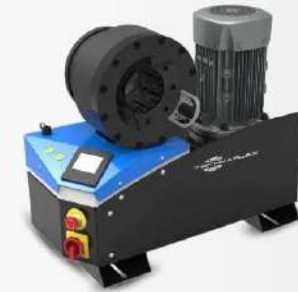

All of Techmaflex's assembly machines undergo a rigorous product development process and are subject to extensive testing in both laboratory and field environments.

Special machines (not included in this catalogue) are available upon request, as well as original spare parts.

POSSIBLE APPLICATIONS

**A COMPLETE RANGE OF ASSEMBLY MACHINES
DESIGNED TO FIT OEM / WORKSHOPS**

Market segments served by Manuli Hydraulics France (Techmafex)

Crimping machines for industrial hoses are going to be integrated in the Manuli Hydraulics range

EVO range Benchtop models for Workshop Unit

Stand Type Crimping machines for Assembling production unit, OEM and distribution

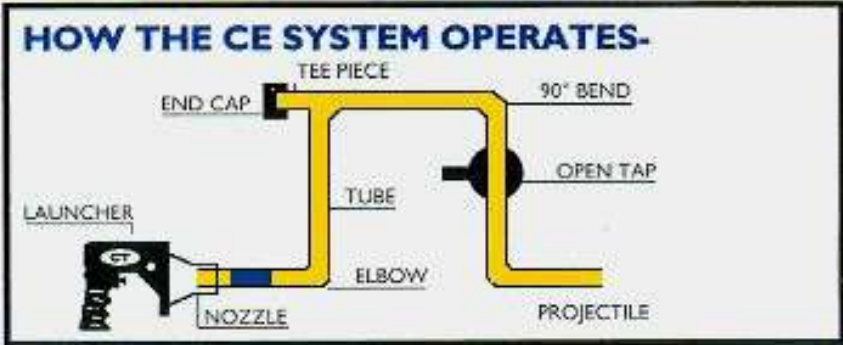

Hose / Tube Cleaning Kits

APPLICATIONS

- Hydraulic and Pneumatic lines
- Reduce Oil Flushing Time
- After an Oil Change
- Heat exchangers and Condensers
- Steam boiler systems
- Rubber and Plastics
- Air conditioning and Refrigeration
- Oil, Gas and Chemical Processing
- Oxygen and gas
- Earthmoving equipment maintenance

exact
Pipe Cutting System

**PORTABLE PIPE CUTTER
FOR STAINLESS STEEL PIPES**

MODEL
**220
INOX**

Portable Pipe Cutter
for Stainless Pipes

**THE NEW GENERATION FOR
CUTTING PVC & STEEL PIPES**

Pipe Cutting System

exact
PRO SERIES PIPECUT 280

LED-INDICATION

- OK
- Slow down
- Motor temperature critical, motor protection active

- More powerful motor
- Integrated laser for an exact alignment of the blade
- Visual indication of the ideal cutting speed
- Motor overload protection

WEIGHT	RANGE OF USE	MAX PIPE WALL	SUITABLE FOR
9 kg	40 mm - 280 mm	STEEL 20 mm PLASTIC 45 mm	ALL Materials
